

## COMPO-WOOD © SHUTTERS

**NEW**  
**Product**  
**2010**

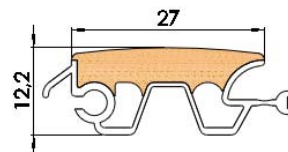

The Plastil Compo-Wood shutters add a natural feel to work environments

- Wood-faced shutters on a recycled, proven PVC carrier mechanism
- The 30% 'wood fill' gives a soft feel, non industrial aspect
- These shutters are ideal for Home Furnishing and Office Furniture applications
- Accessories can complement the shutters : complete terminals with handles and locks, and tracking systems –see our leaflets on tracking systems
- Finishes : four main finishes are available to match the current wooden furniture trends, from light to darker wooden shades

### SHUTTER SYSTEM

reference	description
