

## PVC VERTICAL OPENING SHUTTER SYSTEM

- This system is mainly aimed at small dimensions vertical opening cabinets –applications in office furniture, kitchen furniture, caravans, etc.

- Special tracking or full roller systems are available to adapt different dimensional and functional constraints

- One point lock can be fit to handle

- Standard colours are offered to suit every customer's requirements : plain, woodgain, aluminium finishes.

Our shutters have been developed over many years to give easy and quiet operation whilst maintaining optimum rigidity with efficient weight per metre.
