

## SPACE SAVING APPLICATIONS

- This system is mainly aimed at side opening cabinets up to 2 metre high.
- A special tracking system enables to save space on the sides of the cabinet.
- Accessories can complement the system : various types of locks and handles.
- Standard colours are offered to suit every customer's requirements : plain, woodgrain, aluminium finishes.

Our shutters have been developed over many years to give easy and quiet operation whilst maintaining optimum rigidity with efficient weight per metre.
